

Updated as of 10/20/2022 as per the course providers

Note: Courses below are approved by NRPP and/or NRSB – they will fulfill the NJ requirement to take an 8-hour training course for multifamily, schools, and/or large buildings – if the course is under both the multifamily buildings and the schools and large buildings headings, the provider has confirmed that the course covers all three building types. This was prepared to assist radon professionals and may not be a complete list of courses. Visit nrsb.org and nrpp.info to check for other courses
